AIMS
Animal Tattoo Identification
Permanent, Easy, and Cost Effective
The New NEO-9 Neonate Tattooing System was developed just for tattooing P0 - P15 neonate rodents of any color/strain. This comprehensive tattoo ID kit comes complete with everything you need to tattoo ~2000 neonates. The detailed training guide provides step-by-step guidance with detailed illustrations of ID schemes with small and large number ranges. Neonate tattoo identification is a practical and humane alternative to toe clipping. Toe tattoos allow you to use your existing numbering system for toe clipping without removing the toe.

- Tattoo P0 - P15 mice/rats.
- Tattoo any color neonate.
- No anesthesia needed.
- Tattoo markings permanent.
- Reduce animal stress (quick & safe).
- Low cost (~2 cents/neonate).
- Detailed instructions (w/ DVD).
- Multiple ID schemes available.
- Unique numbers up to 10,000.
- Use toe clipping number scheme.
- Custom micro tattooing platform
- Unlimited technical support from AIMS.
