Detailed Training Instructions

Comprehensive Tattoo System

Micro Tattooing Station w/ light & 4x magnification

**A Viable Alternative
To Toe Clipping !**

A Toe Friendly Approach to Lab Animal Identification !

Neonate Tattoo Identification

Permanent, Easy, and Cost Effective

NEO-9 Neonate Tattoo System was developed just for tattooing P₀ - P₁₅ neonate rodents of any color/strain. This comprehensive tattoo ID kit comes complete with everything you need to tattoo ~2000 neonates. The detailed training guide provides step-by-step guidance with detailed illustrations of ID schemes with small and large number ranges. Neonate tattoo identification is a practical and humane alternative to toe clipping. Toe tattoos allow you to use your existing numbering system for toe clipping without removing the toe. A perfect tattoo system to manage production of your transgenic animals.
